Successful Aging: A concept and lifestyle promoted by Starcastle

Wang Shi: Financial market should open up to different types of capital

1) Absence of disease
2) Mental and social health
3) Physical health
4) Financial independence
5) Resilience
6) Optimism

The concept of successful aging can be traced back to the 1950s, and it differentiates successful from usual aging in order to design effective strategies and medical interventions to promote health and well-being in older age.

Key Factors of Successful Aging

- Physical health
- Mental and social health
- Financial independence

Wang Shi: The Bund Global Financial Summit held in Shanghai

- The Bund Global Financial Summit was held at Waldorf Astoria Shanghai on the Bund, Huangpu District, Hangzhou, Zhejiang Province, China. It was sponsored by the Shanghai Municipal Government and the Shanghai International Financial Center, and co-organized by Fosun International and its subsidiaries.

- The summit was held to promote the development of Shanghai as an international financial center and to discuss the future of the Chinese economy.

- The summit included discussions on financial innovation, financial reform, and the role of the Chinese renminbi in the international financial system.

- The summit also included talks by prominent figures from the financial industry, including Jack Ma, the chairman of Alibaba Group, and Ma Weihua, the chairman of China Minsheng Bank.

- The summit was attended by over 500 guests, including government officials, business leaders, and academic experts.

- The summit concluded with a call for greater openness and collaboration in the financial sector, as well as a commitment to promoting sustainable economic growth in China.

Chen Dongsheng: The era of the emergence of a financier

- Chen Dongsheng discusses the era of the emergence of a financier, highlighting the importance of developing a financial ecosystem that is open and inclusive.

Guo Guangchang: the reason I am taking the role of an attendant today

- Guo Guangchang discusses the importance of the financial industry in driving economic growth and the role of fintech in shaping the future of finance.
